## TRANSFORMATIVE LEADERSHIP: STRATEGIES FOR FUTURE-PROOFING YOUR ORGANIZATION

SEPTEMBER 16, 2025 | 9:00 A.M. – 4:00 P.M.

Elevate your leadership impact with this transformative workshop, crafted for executive leaders ready to navigate and shape the future of their organizations in a rapidly evolving, tech-driven global landscape. This immersive experience challenges leaders to harness visionary thinking, delve into disruptive trends, and develop robust strategies that ensure success in a dynamic business environment.

Participants will explore key themes, including mastering the drivers of exponential change, enhancing innovation capabilities powered by AI and technology, nurturing a forward-thinking mindset, anticipating and preparing for disruptions, envisioning bold goals, engaging with innovation ecosystems, and aligning purpose-driven strategies with effective execution.

By the end of this workshop, leaders will be equipped with innovative perspectives, actionable strategies, and a comprehensive roadmap to cultivate an adaptive, future-focused organizational culture. This experience is designed to inspire transformative, long-term thinking and empower executives to steer their organizations with resilience, agility, and foresight in an era marked by relentless change, AI-driven innovation, and disruption.

### This program will help leaders:

- Explore future-trends and drivers of exponential change.
- Explore new perspectives and frameworks for navigating the future.
- Envision and develop strategies and policies to inspire long-term thinking and ensure teams and organizations thrive in the rapidly shifting economy.

**Competencies Addressed: Business Insight, Cultivates Innovation, Drives Engagement, Drives Vision & Purpose, Strategic Mindset**

### ROB NAIL

Rob is a technologist, engineer, serial entrepreneur, coach, advisor, husband and proud father of two small kids who remind him daily that his past is mostly irrelevant to their future. He is equally excited and terrified by this future and is passionate about ways to engineer our dreams through creating experiments, tools, content, and networks that can shape an equitable and inclusive future of abundance for all. He is currently a Strategic Advisor, Mentor, and Coach, facilitating programs on technology, innovation, and intrapreneurship at the Nomura-SRI-Innovation Center and a think tank on the Future of Learning for CompTIA. On the side, he is developing experiments on future opportunities and implications of the Metaverse and actively experimenting with artificial intelligence and blockchain technologies for the future of work, education, and leadership, while learning from some of the greatest leadership and executive coaches today as an original member of 100Coaches (Marshall Goldsmith's leadership cohort).

Previously, as Associate Founder and former CEO of Singularity University (SU), Rob grew the institution to become a global leader for understanding exponential technologies and transformation. Rob has been a director on several boards including a public director at Harman (HAR) to assist with their tech transformation, ultimately resulting in the ~\$8 Billion acquisition by Samsung in 2016. He co-founded Velocity11 in 1999, building automation and robotics for cancer research and drug discovery to later be acquired by Agilent Technologies in 2007, where he traded the CEO role for a General Manager role attempting to be a catalyst for change at a big company. He gave up in 2009 to go surfing. He holds degrees in Mechanical, Materials Science and Manufacturing Systems Engineering from UC Davis and Stanford University. His mission is to build bridges to an amazing future.
