

**University of Dayton Center for Leadership
Pre-Assessment Questionnaire**

(Please bring this completed form with you when you check into your program)

By turning in this form and attending in-person UDCL classes, I am attesting that I have performed the below symptom assessment and that I do not at present have any of the listed symptoms.

Symptoms assessed:

- Fever of 100.4°F or higher
- Cough
- Shortness of breath or difficulty breathing
- Chills
- Muscle pain
- Sore throat
- New loss of taste or smell
- Nausea, vomiting or diarrhea

I understand that if I am experiencing any of the symptoms listed above, I am not to come to the UD campus. I understand that if I misrepresent my symptoms, i.e., I turn in the form as though I am symptom-free yet I am experiencing symptom(s), I will jeopardize my health and the health of others. If I have misrepresented my symptoms and the University finds out, I can be barred from campus permanently (and if I am attending through my employer, they too can be barred from further UDCL program participation privileges, and the Center will notify my employer of my misrepresentation).

I further state that, if during the course of attending the class, I experience any of the above listed symptoms, I will leave the program immediately and promptly contact the Center to explain the reason for my departure. I will cooperate with any additional information requested by the Center and/or public health officials.

Print Name: _____

Signature: _____

Date: _____

Program Attending: _____

Attending in-person classes at the University of Dayton is the sole decision of the person attending. All facilitators, staff, and program participants are to complete a pre-assessment questionnaire (see attached/below) and bring with them to class and administer a self-temperature check, along with following social distancing guidelines, wearing a face covering, and abiding by University of Dayton policies to assist all in the community being kept safe. A program participant is also expected to contact the University of Dayton and cooperate with health authorities if diagnosed with COVID-19. Program participants acknowledge and accept through their attendance the risk associated during times of the COVID-19 pandemic.
