GET MOBILE

Is a mobile portal where students (and parents), with a University of Dayton (unique) ID, can manage their campus card accounts, find places to eat and more! GET provides valuable information about account balances and spending history and enables you to report a card lost or stolen at any time, day or night.

Two Easy Ways to Access GET

1. GET Mobile App
 [Download Apple iOS](#) app or [Android](#) app
 Open the app and select the University of Dayton
 Sign in using your University of Dayton credentials (ID and password)

2. GET Online
 Go to [get.cbord.com](#)
 Select the University of Dayton
 Sign in using your University of Dayton credentials (ID and password)

* Parents may only add funds to a neighborhood account by calling Dining and Card Services. Because neighborhood is a bill-me tender, it is not available without logging in. Students may add neighborhood funds by logging in, calling or visiting Dining and Card Services, using the GET mobile app or at any participating Dining Services venue, at the register.

Online Ordering With GET Food

Mobile ordering with **GET** is a breeze! Just download the app, input your university credentials and the rest is simple! Select a participating venue, take a look at the menu, choose from available options and place your order!
