SCHOOL OF ENGINEERING SUMMER INNOVATION PROGRAM

Program Overview and Course Information
The University of Dayton and School of Engineering are pleased to offer a two-week engineering innovation course, where international students will earn three University of Dayton credits, immerse themselves in the American classroom, and participate in tours and excursions around the Dayton area to experience American culture and life. This course is primarily geared towards skill development in the areas of required analysis, creativity, conceptual design, design and problem-solving processes, prototyping, teamwork, and project communications.

Program Dates
The program will take place for a period of two-weeks, from July 28 - August 10, 2019. Students should arrive in Dayton on Saturday, July 27.

Program Cost
The program cost is $3,000 USD. This cost includes 3-credits of tuition, housing, meals, program transportation and activities/excursions. Students are responsible for travel costs to and from Dayton as well as personal expenses.

Program Benefits
Students have a unique opportunity to have their English proficiency requirement waived at the University of Dayton. Students who complete the Summer Innovation Program with a GPA of 3.0 or higher will have their English proficiency requirement waived after successfully completing an application to transfer to the University of Dayton.

ADDITIONAL INFORMATION
