

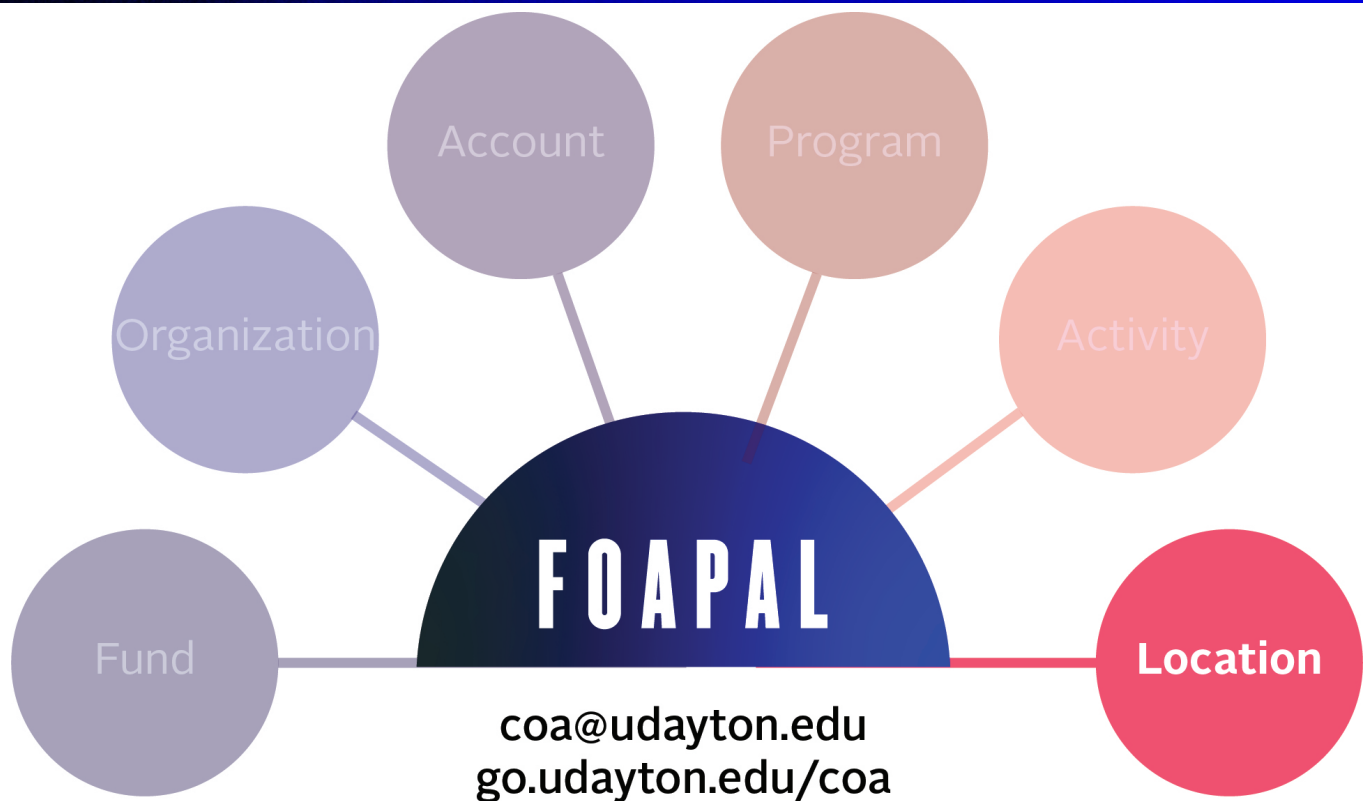

# CHARTING OUR NEW PATH

## ..... *Introduction to LOCATION* .....

### **Definition:**

*The LOCATION segment is used for the operational tracking of activities to general locations both on and off campus. Locations are tracked by building and/or general area, not by individual room. All values that begin with a letter (A – Z) are for asset and facilities tracking only and will not be used in day to day tracking of operations.*

<b>ON-CAMPUS:</b>	This value range is used to track operational locations on the main Dayton campus.
<b>OFF-CAMPUS:</b>	This value range is used to track neighborhoods and generic off-campus locations.
<b>UDRI RESEARCH:</b>	This value range is used to track federal versus non-federal locations associated with research activities.
<b>UNSPECIFIED:</b>	This value is used for transactions that do not have a specific operational location or where the operational location would add no value or be redundant.
