of Dayton

OUR HOME IS A **POWER HOUSE**

From creating a computer chip that can teach itself to implementing strategies to combat human trafficking, we don't just imagine a world of possibilities. *WE CREATE IT.*

As a Catholic, Marianist university, our spirit ignites a boundless curiosity that drives us to search for truth. It pushes us to go beyond the easy answers and to use our knowledge to make an impact. Here, we adapt to meet the needs of the changing world. We turn big dreams into bold moves — always with the common good at the center.

- ⇒ **TO INCREASE AFFORDABILITY AND IMPROVE STUDENT SUCCESS**, we implemented a bold approach to tuition that eliminates fees — and holds steady the tuition a student pays each year. Our Flyer Promise program removes financial barriers for high-achieving underrepresented students, and as a member of the American Talent Initiative, we are working with 100 top-performing universities to collectively educate 50,000 additional high-achieving, lower-income students by 2025. In addition, the UD Sinclair Academy, a partnership with Sinclair Community College, eases the pathway to a four-year degree.
- ⇒ **TO BUILD A GREENER WORLD**, we're a charter participant in the STARS system, where we earned a gold rating for our sustainability efforts. Our Hanley Sustainability Institute also develops transdisciplinary projects that make a positive impact on campus — and in the community.
- ⇒ **TO HELP SOLVE REAL-WORLD PROBLEMS AND SPUR INNOVATION**, we work side-by-side with hundreds of industry partners. Two of them — GE Aviation and Emerson — established major research and development centers on the University's campus. UD also partnered with Premier Health to develop onMain, a 38-acre district that aims to foster imagination and innovation, and a joint venture with The Entrepreneurs Center has led to the creation of The Arcade Innovation Hub LLC, which will fuel economic growth and spark creativity.

We are builders of community — inviting people with diverse talents, interests and backgrounds to enrich and advance our common mission. Together, we're passionately striving to create a brighter tomorrow.

AT A GLANCE
