PATH FORWARD

STUDENT TRAINING

COVID-19

University of Dayton
OVERVIEW

I PROTECT YOU. YOU PROTECT ME.
ABOUT COVID-19

→ COVID-19, caused by a new coronavirus, is a respiratory disease that spreads from person to person through close contact. In some cases, COVID-19 can be a fatal disease.

→ An infected person can spread COVID-19 to others even if they do not feel sick.

→ It is impossible to guarantee an environment without COVID-19. However, following the protocols in this training can help create a safer UD community for all.

→ These protocols may be revised based on future guidance from public health officials and our medical advisory panel.
About COVID-19

- The virus that causes COVID-19 is spread through respiratory droplets when an infected person talks, coughs or sneezes. These droplets can land in the mouths or noses of people who are nearby or may be inhaled into the lungs.

*Face coverings can reduce the amount of droplets spread and the distance they are spread.*
PHYSICAL DISTANCING
WATCH YOUR WINGSPAN

COVID-19

University of Dayton
PHYSICAL DISTANCING

- The most effective method of reducing risk is to keep at least 6 feet of space between you and others.
- This is especially important for interactions lasting longer than 15 minutes.

DO YOUR PART
STAY 6 FT APART

IT’S THE APPROXIMATE WINGSPAN OF RUDY FLYER
{ or 7.5 basketballs }
PHYSICAL DISTANCING
PHYSICAL DISTANCING

FACE COVERINGS

HYGIENE

CLEANING & DISINFECTION
PHYSICAL DISTANCING

- Comply with occupancy limits for rooms, elevators and common spaces.
- Abide by rules for foot traffic; follow signage and floor decals.
- Stay out of crowded places and avoid mass gatherings, including in the student neighborhoods.
- Use technology like Zoom for team meetings and conversations.
FACE COVERINGS
I WEAR IT FOR U(D)
Face coverings reduce spread of respiratory droplets, which reduces the risk to others.
FACE COVERINGS

- Reduce the spread of the coronavirus by wearing a face covering over your nose, mouth and chin.

- Wear face coverings in all shared indoor environments. (Exception: Face coverings are not required if you’re alone in an enclosed workspace.)

- Wear face coverings outdoors when physical distancing isn’t possible.
HEALTH & HYGIENE
HEALTH AND HYGIENE

PHYSICAL DISTANCING

FACE COVERINGS

HYGIENE

CLEANING & DISINFECTION

COVID-19
HEALTH AND HYGIENE

- Wash your hands frequently with soap for at least 20 seconds before and after:
  - Interacting with others.
  - Entering public spaces.
  - Using a face covering.
  - Contacting shared surfaces/objects.

- Use hand sanitizer containing at least 60% alcohol when hand-washing is not possible.
HEALTH AND HYGIENE

- Cover coughs and sneezes with your face covering and the inside of your elbow, or a tissue.
  - Throw used tissues in the trash.
  - Then wash your hands.
- Avoid touching your face.
- Avoid sharing personal items with others.
SANITIZING & DISINFECTING
SANITIZING AND DISINFECTING

CLEANING & DISINFECTION

COVID-19
SANITIZING AND DISINFECTING

- The University’s janitorial contractor, Alpha & Omega, is performing enhanced and frequent cleaning measures in communal areas of campus buildings, including restrooms, hallways, stairways, lobbies, lounges, break rooms, kitchens and classrooms.

- Alpha & Omega will use disinfectants effective against COVID-19 to sanitize all commonly touched areas — including doorknobs, handrails, elevator and other buttons, light switches, faucets, drinking fountains and vending machines — on a daily basis.
SANITIZING AND DISINFECTING

- Everyone is responsible for cleaning and disinfecting shared areas on campus.
- Everyone has a responsibility for sanitization in their own work or living area; shared vehicle; shared space on campus; and when using other shared resources and commonly touched items.
- Community members should clean as they enter and before using shared spaces.
- You are only required to clean areas you will come in contact with.
SANITIZING AND DISINFECTING

Minimum cleaning protocol for students:
- Wipe down your desk and chair.
- Wipe down any shared materials you expect to use.

Minimum cleaning protocol for instructors:
- Wipe down table/podium.
- Wipe down any materials and surfaces you expect to use.
SANITIZING AND DISINFECTING

Steps you should take for cleaning:

— Locate the disinfectant in the shared space and apply it following the provided directions.

— Allow the disinfectant to sit for the required contact time. Surface must remain wet for the disinfecting process to be effective. If surface dries before the minimum time, reapply the cleaner.

— Dispose of the used material (e.g., paper towel, wipe) in the trash receptacle.
SCREENING & HEALTH
SCREENING AND HEALTH

- Take your temperature daily.
- Stay home when sick. Do **not** come to campus, go to class or engage with others if you have:
  - Fever of 100.4°F or higher.
  - Chills or muscle pain.
  - New onset of:
    - Cough.
    - Shortness of breath or difficulty breathing.
    - Loss of taste or smell.
  - Other symptoms of COVID-19 (see cdc.gov).
SCREENING AND HEALTH

- Stay home if anyone in your household has been diagnosed with COVID-19.

- Report any known or potential COVID-19 exposures to the UD Health Center in a timely manner.
HOUSEHOLDS

- Each room, suite, apartment and house will be considered a “household.”

- Students in a household will not be required to wear a face covering or observe physical distancing when inside their own household.

- Face coverings and physical distancing should be observed outside of the household.
ADDITIONAL MEASURES
ADDITIONAL MEASURES

Additional measures require you to:

— Follow the University’s restrictions on visitors; students are not permitted to have external guests.
— Refrain from nonessential travel.

These are challenging days, but we will get through them together. Be kind, support one another, respect enforcement efforts and encourage others to follow safety expectations.
POSITIVE COVID-19 CASES
The University has developed specific procedures for cleaning and disinfecting areas if a student or employee tests positive for COVID-19.

Entire building operations do not necessarily need to cease as long as the affected areas can be identified and isolated.

Once the area has been disinfected, it can be safely reopened for general use.
POSITIVE COVID-19 CASES

- If you test positive for COVID-19 or are exposed to someone known to have COVID-19, you are expected to cooperate fully with health officials and others, including for contact tracing.

- Case investigation and contact tracing are used to:
  - Identify and isolate anyone who is sick.
  - Identify and quarantine for 14 days anyone who has been in close contact* with individuals who are sick.

*Being within 6 feet of an infected person for at least 15 minutes starting from 48 hours before illness onset until the time the patient is isolated.
Case investigation and tracing may take several days.

Investigators will warn close contacts they were exposed, assess their symptoms and risk, and provide instructions for next steps.
FOR THE COMMON GOOD
FOR THE COMMON GOOD

Why follow these safety measures?

— Because Flyers believe in the power of community and know that together we can make a difference.
— Because Flyers care about each other and want to keep our community safe and healthy.
— Because Flyers want to remain at UD; ignoring these steps could result in students returning home and engaging in remote learning.
COVID-19
STUDENT AGREEMENT
COVID-19 STUDENT AGREEMENT

- Read the full Flyer COVID-19 Agreement on the following pages.
- Electronically sign the Agreement to state you have read, understand and agree to comply with its terms.
As a Catholic, Marianist university, the University of Dayton believes in learning and living in and through community, respecting the dignity of every person and working together to promote the common good. This commitment to community demands the virtue of solidarity that goes beyond self-interest, calling each of us to care for our neighbor and those who are most vulnerable. During the active COVID-19 pandemic, this call takes on heightened meaning, as an inherent risk of exposure to this serious disease exists anywhere people are present. It means that everyone in the UD community must help protect each other, with humility, patience and a spirit of unity. In a public health crisis, this is not an abstract ideal; this is our concrete responsibility.
COVID-19 STUDENT AGREEMENT

I am willing to take on this risk and responsibility in order to be part of the UD campus community, and as such, I agree and acknowledge:

- I will practice physical distancing (6 ft.) outside my household.
- I will monitor my health daily for COVID-19 symptoms (available at cdc.gov) and stay in my household if sick, unless I am seeking medical care.
- I will wear a face covering in shared indoor environments (other than my household) and outdoors when physical distancing is not possible, consistent with University guidance.
COVID-19 STUDENT AGREEMENT

- I will practice good hygiene, meaning, (a) I will wash my hands thoroughly and often or use hand sanitizer; (b) I will practice good respiratory etiquette (covering coughs and sneezes); and (c) I will keep my space and belongings clean and sanitized.

- I will follow the University’s safety guidelines, including signage, understanding the guidelines may change during the life of the pandemic. I will do my best to keep myself apprised of these changes and adapt to any updated guidelines.

- I will stay out of crowded places and avoid mass gatherings on campus, in accordance with public health guidelines, including in the student neighborhood.
COVID-19 STUDENT AGREEMENT

- I will refrain from nonessential travel during the on-campus portion of the fall 2020 semester, particularly in and through areas that are congested or hotspots for COVID-19.

- I will follow the University's restrictions on guests, understanding that, at least for fall 2020, no external guests are permitted.

- I will complete and comply with all COVID-19-related training required by the University.

- I will report any known or potential exposures to COVID-19 to the UD Health Center in a timely manner.
COVID-19 STUDENT AGREEMENT

⇒ If I test positive for COVID-19 or am exposed to someone known to have COVID-19, I will comply with University-imposed restrictions (which could impact my housing assignment for some period, if I live in UD housing) and cooperate fully with health officials and others, including for contact tracing.

⇒ I will graciously encourage others regarding safety expectations without judgment or jumping to conclusions, and, in turn, I will be respectful of enforcement efforts and if someone reminds me of what is expected.

⇒ I will do my best to respect the dignity of everyone in the UD community, to act without bias, and to help those who may need support.
COVID-19 STUDENT AGREEMENT

I understand that COVID-19 is highly contagious; it is possible to contract the virus even if I follow all of the safety precautions in this agreement; and although the University is following guidelines issued by government and medical experts to help reduce the spread of infection, I can never be completely shielded from all risk of illness caused by COVID-19 or other infections. I further understand that living out this agreement is a condition of my ability to remain on campus and participate in in-person activities, and that any failure to comply may lead to disciplinary action, up to and including removal from campus.
